## About Me

As a dedicated and proactive student, I am enthusiastic about harnessing my programming skills and strong work ethic to make a meaningful contribution to your esteemed organization. I am committed to both adding value to your team and advancing my own expertise in an entry-level programming career.

## Skills

- C
- JAVA
- Web Development
- HTML
- CSS

## Languages Known

- English
- Kannada
- Tamil
- Telugu

## Projects

### Modern Periodic Table using C

Create an interactive C program that takes user input and displays the Modern Periodic Table, providing a valuable educational resource for users to explore and gain insights into the properties and characteristics of chemical elements in a user-friendly manner

### Student Record Management

A web-based Student Record Management system using HTML, CSS, and JavaScript, enabling efficient tracking and organization of student information. This project enhances data management for educational institutions through a user-friendly web interface.

### Cricket Scorecard Display using C

A Cricket Scorecard Display program in C that allows users to input match details and presents them in an organized and user-friendly format. This project simplifies the tracking and presentation of cricket match scores for enthusiasts and analysts.
